

Hurricane Survival

Name _____ Date _____

Directions: Write your responses on this sheet or on separate paper.

1. When is the best time to prepare for a hurricane, and why?

2. Describe the three steps the video says are needed to prepare for a hurricane.

3. Read the statement and tell whether it is true or false. Then explain your answer.
When a hurricane warning is issued, people should install hurricane shutters, test their generators, and go get extra fuel.

4. Your friend tells you that he isn't going to evacuate, even if the officials tell him to, because he doesn't think hurricanes are that dangerous. Write two things that you learned from the video that you could say to change his mind.

5. If someone doesn't live in an area that gets hurricanes, how can he or she still use a family disaster plan?
