

Harbor Seals in Seaside Homebody

Name _____ Date _____

1. What features make a habitat good for harbor seals?
2. What do harbor seals eat? Does this diet make them meat eaters (carnivores) or vegetarians (herbivores)?

3. What do the red lines on the map mean?
4. Harbor seals can stay underwater for a long time. What are three things that help harbor seals stay underwater without breathing?
5. Harbor seals are solitary animals. That means they spend a lot of time alone. Do you think people are solitary animals? Explain your answer.

Teacher Instructions: Have students write their responses on this sheet or on separate paper.
