

# The Killer Whale in Three of a Kind

Name \_\_\_\_\_ Date \_\_\_\_\_

1. How would you compare the three types of orcas described in this video?
2. Are orcas meat eaters (carnivores) or vegetarians (herbivores)? How can you tell?
3. How is a pod of orcas similar to or different from your family?

4. This picture shows the different foods that some orcas like to eat. Draw a similar example to show foods you like to eat.

TRANSIENT ORCAS ARE KNOWN TO EAT 22 DIFFERENT TYPES OF PREY - EVERYTHING FROM SEALS, SEA LIONS, DOLPHINS - EVEN OTHER WHALE SPECIES, SEA BIRDS AND MOOSE!

5. When orcas breach, fluke slap, or wave their fluke, do you think they are just playing or doing something else? Explain your answer.

---

**Teacher Instructions:** Have students write their responses on this sheet or on separate paper.
