

Weird Animals: Sea Cucumber

Name _____ Date _____

1. What do sea cucumbers eat?

2. How many different kinds of sea cucumber are there? Why do you think there are so many different kinds?

3. Why do you think some sea cucumbers have so many spikes on their bodies? What are the spikes for?

4. If a sea cucumber doesn't have a brain, how does it find food and decide what to do?

5. Is a sea cucumber a living thing? Provide at least two reasons why it is or is not.

Teacher Instructions: Have students write their responses on this sheet or on separate paper.
