

A Guided Tour of the Moon

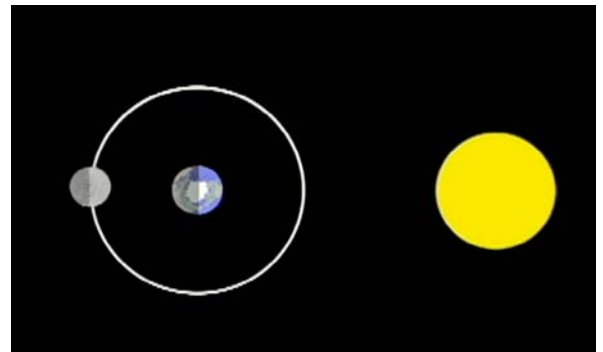

Name _____ Date _____

Directions: Write your responses on this sheet or on separate paper.

1. What created the long white lines visible on the surface of the Moon?

2. Why is it that people on Earth always see the same side of the Moon?

3. Looking at the picture, how would the Moon look from Earth when it is in this position? What is this phase called?

4. If people wanted to live on the Moon someday, what are some things they would need to take with them?

5. Apollo astronauts landed on the Moon and walked in an area called the *Sea of Tranquility*. Is it possible to see the Sea of Tranquility from Earth? Why or why not?
