

# First Spacecraft at Uranus

Name \_\_\_\_\_ Date \_\_\_\_\_

**Directions:** Write your responses on this sheet or on separate paper.

1. What is special about the way Uranus spins, or rotates, on its axis?

2. Which other planet in the solar system reminds you of Uranus the most?

3. What did *Voyager 2* help scientists discover about Uranus?

4. It took *Voyager 2* about ten years to reach Uranus. Why do you think it took so long to get there?

5. Uranus is a *gas giant*. Do you think a spaceship could fly right through Uranus? Why or why not?
