

Creatures of the Deep: Sea Spider

Name _____ Date _____

Directions: Write your responses on this sheet or on separate paper.

1. In what oceans can sea spiders be found?

2. Why do sea spiders have extra limbs? What do they use these limbs for?

3. What are the similarities and differences between sea spiders and spiders that live on land?

4. How would you feel if you encountered a spider that was three feet wide? Why?

5. The video states that there are more than 1,300 different species of sea spiders. Why do you think so many different species exist?
