

# Show Me the Water

Name \_\_\_\_\_ Date \_\_\_\_\_

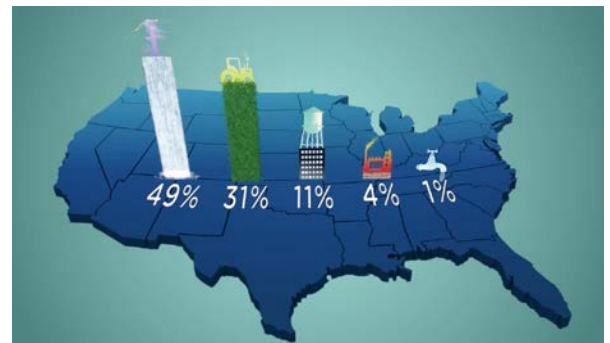

**Directions:** Write your responses on this sheet or on separate paper.

1. Draw a pie chart that compares the percentage of salt water to the percentage of fresh water on Earth.

2. Where is most of the fresh water found on Earth?

3. What percentage of the world's fresh water is found in lakes and rivers combined?

4. Compare the percentage of water used for agricultural irrigation in the United States with the percentage used in developing countries. What do the different percentages tell you about how water is used in each place?

5. How does the Global Precipitation Measurement mission help farmers and ranchers?
