

# Deep-Ocean Volcanoes

Name \_\_\_\_\_ Date \_\_\_\_\_

**Directions:** Write your responses on this sheet or on separate paper.

1. Where do most volcanic eruptions on Earth occur?

2. Where is the *West Mata Volcano* located? Mark and label your response on the map.

3. How do underwater volcanoes relate to the formation of some ocean islands?

4. How can scientists more easily locate deep-ocean volcanoes? Propose two new ideas.

5. Would you expect to find living things thriving near a deep-ocean volcano? Why or why not?
